Smart ERP is compressive school management software solutions for all educational institutions. Smart ERP designed and developed by SMART EDUCATIONS manage all facts of any educational institute.

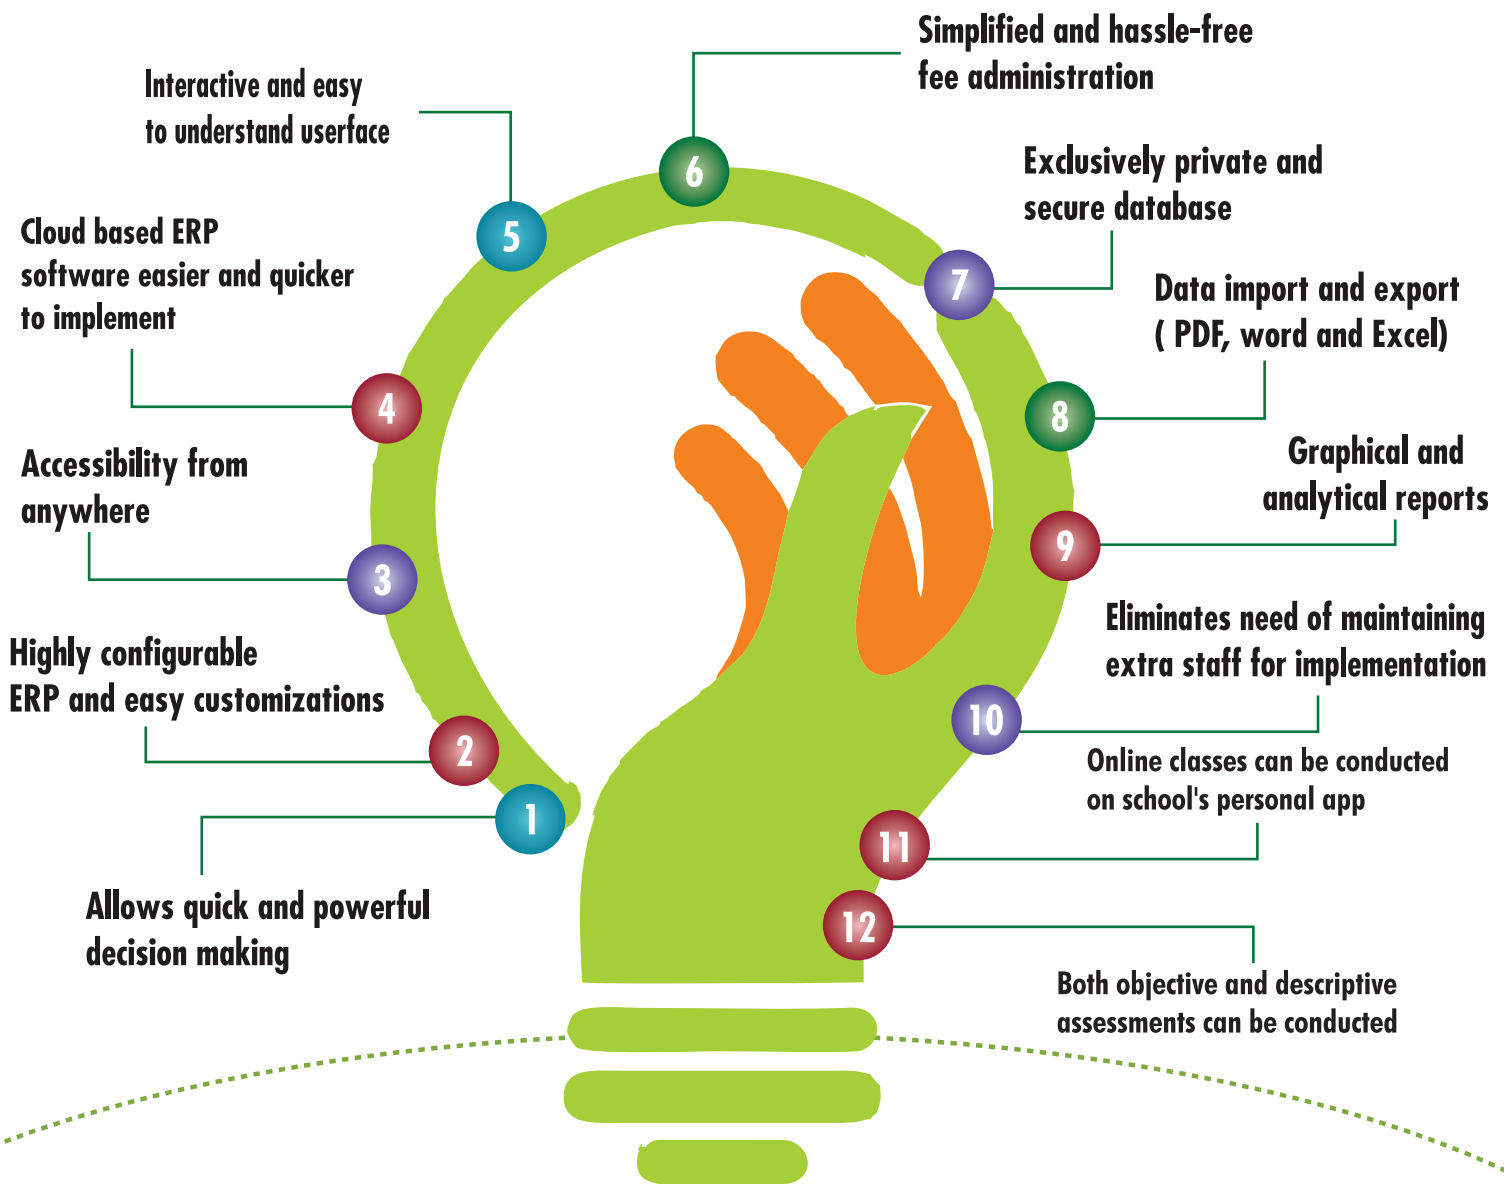

Smart ERP helps schools to automate various critical operations like admissions, fee management, student records, examination, timetable, library management and results management etc.

Features of Smart ERP

Simple, Powerful & affordable School Management System

Smart ERP

MODULES

SMART ERP has a complete list of powerful modules to make school management easy, quick and efficient. SMART ERP ensure that the school does not have to invest too much money in expensive computer servers and their maintenance. This allows the school to focus more on optimizing its service offerings and ensure all the stake-holders are benefitted. All that is needed is internet connectivity to use the solution.

SCHOOL'S PERSONALIZED ERP APP

Smart ERP provides a unified Android app branded in your institutions name with the logo of the institution as the app icon. The app centralizes all the school-parent interaction and lets parent be updated with their ward's assignments, circulars , reports, fee payment and a lot more with a single app
